

# KEEP YOUR EDGE

*With Patti, RDH*

SCALE SMART, STAY SHARP

## WORK ORDER

### Service Fees:

\$2.00 per tip (SGL end \$2 / DBL end \$4)

**\*\*Pick-up/Delivery fee starts at \$25 up to 30 miles (additional fee based on distance beyond 30 miles)**

**\*\*A small handling fee may apply to cover any supplies used for repackaging, coding, or shipping, etc.**

**\*\*Shipping fees will be based on current carrier fees**

*I know it is important to limit time without your instruments so in whatever way that I receive your instruments, I will do my best to limit turnaround time so you can have them back in rotation ASAP. I also know that not everyone has 2 complete sets to rotate sending out so I will work with you to come up with the best way to make it so that you are not working with limited resources for an extended period of time.*

**\*\*\*NOT** responsible for instruments received for sharpening with thin or misshapen blades due to poor sharpening techniques previously or heavy wear due to overuse. These issues can cause the need for heavier blade removal for reshaping and sharpening. I will be as conservative as I possibly can when sharpening to preserve and prolong the life of your instruments. If an instrument is deemed unusable it will be set aside and returned at no charge with recommendation for replacement. I may also make note of any instruments that may still be useful but are not recommended for further sharpening.

**\*\*PLEASE use your professional judgment and discretion in determining the integrity of ANY instrument you use to reduce risk to you and your patients.**
